

Rubber & Plastic Parts specially designed for the solar industry

- Extrusion parts
- Moulded parts
- Stamped parts
- Prototypes

From our product portfolio for the solar industry

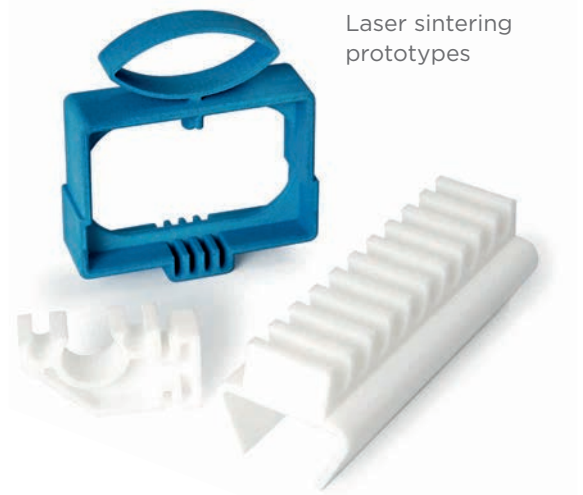

We have specialised in offering comprehensive service for years. From prototypes (rapid prototyping) to series production and beyond (spare part supply), we can supply you with nearly every item you need -

From hanger bolt seals, pads for electrical isolation, cellular rubber strips, rubber profile sections for laminate clamps, vulcanised profile frames, block seals, sensor tube seals, absorbent seals, flange plate seals and cable clips to individualised special parts.

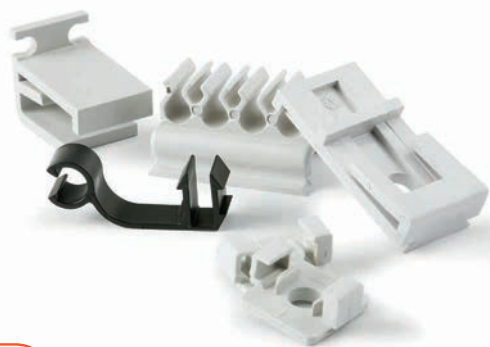

We'd be happy to work together with you to develop an individualised solution that meets your needs. Contact us and benefit from our many years of experience in this sector.

Flange gaskets
for solar collectors
